

YAMUNA PLASTICS

Live Production Setup & Tally TDL Integration Guide Standard Operating Procedure: Live Cloud Web Portal & Client PC Tally Prime

Deployment Model: Live Cloud Web Portal + Single TDL	Mobile Access: 24/7 Global Access via Phone Browser	Tally Compatibility: TallyPrime 2.x - 5.0 (Auto e-Way Bill)
--	---	---

1. Live Cloud Web Portal (Mobile Access Anywhere)

- **Global Mobile Access:** Operates 24/7 on live cloud hosting (e.g. <https://billing.yamunaplastics.com>). Staff and drivers create bills and print dispatch slips on their mobile browsers over 4G/5G/Wi-Fi.
- **Live Cloud Endpoints:** Web App: <https://<YOUR-LIVE-DOMAIN>/> | Tally XML API: [/api/tally/export-xml](#) | Health Status: [/api/tally/status](#).

2. Client PC Setup: Single TDL Installation (2 Minutes — Zero Code)

- **Zero Code Footprint:** No source code, Node.js, Git, or terminal commands on client PC. Exactly ONE file is placed: **YamunaPlastics_Sync.tdl**.
- **Step 1 - Copy File:** Place **YamunaPlastics_Sync.tdl** into **C:\TallyPrime\YamunaPlastics_Sync.tdl**.
- **Step 2 - Load in Tally:** Press **F1: Help** > **TDLs & Add-Ons** > **F4: Manage Local TDLs**. Set 'Load selected TDL files on startup' to **Yes**. Add file path. Save with **Ctrl + A**.
- **Step 3 - Set Live URL:** Gateway of Tally > **Yamuna Plastics Mobile Sync** > **Configure Live Cloud Portal URL**. Enter your live URL (e.g. <https://billing.yamunaplastics.com>). Save with **Ctrl + A**.

3. Daily Accountant Workflow in Tally Prime

- **Method 1 (Direct F6 Sync):** Open Tally Prime. Press **F6** from the sync menu. Tally connects over HTTPS and imports all pending vouchers directly into Sales Day Book.
- **Method 2 (Offline XML Fallback):** Open cloud portal > Invoices > Click 'Export to Tally XML' > In Tally Prime, press **F7: Import File**.

4. Important: Does Tally Prime Need to Be Open to Sync Bills?

- **Mobile Billing Works 24/7 (Even if Tally is Closed):** Mobile staff continue billing normally. Bills queue safely in the cloud with status 'Pending Tally Sync'. Zero bills are lost.
- **Tally Must Be Open to Receive Invoices:** Tally Prime's database engine only accepts vouchers when Tally is running. Windows cannot write into closed Tally files.
- **Bulk Catch-Up on Launch (F6):** Whenever the accountant opens Tally Prime, pressing **F6** downloads ALL accumulated pending bills in one single shot.

5. Automatic e-Way Bill Integration (Zero-Click in Tally)

- **Zero-Click in Latest TallyPrime:** In manual entry, TallyPrime (3.x/4.x/5.0) normally asks 'Do you want to generate e-Way Bill? [Yes/No]' and waits for a click. With our sync, this is 100% AUTOMATIC!
- **Pre-Populated Statutory Data:** The sync XML supplies the 12-digit e-Way Bill number, vehicle number, transporter ID, distance, pincode, and status tag `<EWBSTATUS>Generated</EWBSTATUS>`.
- **No Prompts or Popups:** Tally sees that `<EWAYBILLNO>` is already active, treats the e-Way Bill as already generated, and NEVER asks the user to click any button!
- **F11 Setting Tip:** In TallyPrime, press **F11: Features** > **GST** > set 'Send e-Way Bill details with Sales voucher' to **No** to prevent interactive prompts.

6. Tally Print Configuration (Matching 186 instaplast.pdf)

- **Open Print Config:** Gateway of Tally > Day Book > Open Sales Voucher > **Ctrl + P > C (Configure)**.
- **Printer:** Set to 'Microsoft Print to PDF' or A4 Laser Printer (NOT thermal receipt printer).
- **Key Tally Switches:** Set 'Show Bank details: Yes' (Karnavati Co-Op Bank Ltd), 'Show Place of Supply: Yes', 'Show Customer's Seal & Signature: Yes', and 'Show Address in a continuous line: Yes'.

7. Live End-to-End Testing & Verification Protocol (6 Steps)

Step	Action to Perform	Expected Verification
Step 1	Open Live URL on Phone (4G/5G/Wi-Fi)	Open live cloud portal. Responsive UI displays dashboard & bill form.
Step 2	Create Test Bill on Mobile Phone	Select INSTAPLAST INDIA, item T. C. INNER, vehicle GJ-01-AB-1880, tap Save.
Step 3	Open Tally Prime on Client PC	Yamuna Plastics company open. Gateway displays 'Yamuna Plastics Mobile Sync'.
Step 4	Press F6: Sync API inside Tally Prime	Tally imports voucher with e-Way Bill attached (zero popups or clicks).
Step 5	Check Tally Prime Sales Day Book	Voucher appears in Day Book with correct party, items, and CGST/SGST taxes.
Step 6	Check Print Preview (Ctrl + P > I)	Preview matches 186 instaplast.pdf (e-Way Bill No., Bank, QR, HSN table).

8. Troubleshooting & FAQ

- **TDL Not Loaded:** Verify file path in **F1 > TDLs & Add-Ons > F4**. Ensure file exists at **C:\TallyPrime\YamunaPlastics_Sync.tdl**.
- **Could Not Connect to API:** Verify client PC has internet access. Check **Gateway > Yamuna Plastics Mobile Sync > Configure Live Cloud Portal URL**.
- **Tally Asks to Generate e-Way Bill:** In Tally **F11 > GST**, set 'Send e-Way Bill details with Sales voucher' to **No**. The sync already provides active e-Way Bill details.
